ENVIRONMENTAL INFORMATION

UK Regulation SI 2013 3113 requires that the equipment bearing this symbol on the product an/or its packaging must not be disposed of with unsorted municipal waste. The symbol indicates that this product must be disposed of separately from regular household waste streams. It is your responsibility to dispose of this and other electric and electronic equipment via designated collection facilities appointed by the government or local authorities.

IMPORTANT WARNING NOTES

1. This Hytek AOFILL overfill limiter valve is only intended for use on above ground fuel storage tanks.
2. This valve must not be used on tanks containing petrol or any other flammable liquid.
3. Installation of this valve and its associated pipe-work should only be undertaken by qualified installation engineers.
4. Installation of this valve must conform to all relevant local authority standards and guidelines. When the fuel storage tank has been filled to its maximum capacity fuel will continue to flow through this valve at a minimal rate. An overfill will occur unless the fuel delivery is halted.
