

THE BIRTHPLACE OF MODERN COMMERCIAL FUELLING

Pumptronics

ABOUT:

Hand built in Britain by expert engineers, Pumptronics pumps deliver quality again and again.

Our pumps are designed with our customers in mind - easy to install, robust and reliable.

We build every single pump to the highest specification, so they can perform in the toughest fuelling environments.

OUR HISTORY:

When we started, Pumptronics were the pioneers of the modern fuelling delivery system. Now, 35 years later, we're still at the forefront of innovation in our industry. As part of our development we were acquired by Hytek GB in 2018. With our combined experience of 70 years and a world-beating pump range, we've established ourselves as the commercial pump manufacturer of choice.

Our expertise in designing and manufacturing high-quality pumps has seen us grow across borders to become an eminent commercial pump manufacturer. Over the years our range of pumps has evolved to tackle the most common to the most extraordinary problems that can affect even the most robust pump.

ALPHA

Rugged, reliable and built to last.

The ALPHA range is designed with the engineer in mind, with easy engineer access to reduce downtime and save costs.

The choice for medium to large fleets where accuracy, safety, and reliability are the utmost concern.

The ALPHA is a cost-effective pump that will not let you down.

Mono: 1430mm H x 400mm W x 440mm D
Twin: 1430mm H x 540mm W x 440mm D

STANDARD PRODUCTS

PRODUCT CODES	DESCRIPTION
ALPHA/50A	50L/min diesel pump
ALPHA/70A	70L/min diesel pump
ALPHA/90A	90L/min diesel pump
ALPHA/5050A	50L/min / 50L/min diesel twin pump
ALPHA/5070A	50L/min / 70L/min diesel twin pump
ALPHA/7070A	70L/min / 70L/min diesel twin pump
ALPHA/5090A	50L/min / 90L/min diesel twin pump
ALPHA/7090A	70L/min / 90L/min diesel twin pump
ALPHA/9090A	90L/min / 90L/min diesel twin pump

AdBlue®/DEF OPTIONS

ALPHA/40AB	30L/min AdBlue®/DEF pump
------------	--------------------------

SPECIFICATIONS:

- Compatible with diesel, bio diesel up to B30, HVO (paraffinic diesels) and AdBlue®/DEF
- Cabinet AISI304 stainless steel
- LCD back light volume only display
- 10:1 or 100:1 pulser
- 4-piston positive displacement meter with electronic encoder
- Belt driven suction unit with air separation
- 100 micron inlet filter
- Single phase 240 volts 50/60hz 0.75 kW motor, continuously rated
- Suitable for above and below ground installations
- Certificate: ATEX

OPTIONS:

- Petrol/gasoline version available
- Second side display
- Display in gallons
- MID version for volume resale
- Left, front or right nozzle holster
- High hose mast
- AdBlue®/DEF dispenser option available for use with submersible pumps

ZEON

Ultra compact design with a powerful performance.

The Zeon is a solid, reliable, and rugged solution for any commercial environment.

This versatile pump is perfect for space-conscious commercial fuelling areas.

The Zeon provides a compact solution without compromising performance.

AdBlue®/DEF OPTIONS

ZEAB11LC	25L/min AdBlue®/DEF pump
ZEAB22LC	25L/min / 25L/min AdBlue®/DEF twin pump
ZEAB22LDFC	25L/min / 50L/min AdBlue®/DEF and diesel twin pump
ZEAB22MDFC	25L/min / 70L/min AdBlue®/DEF and diesel twin pump
ZEAB22HDFC	25L/min / 90L/min AdBlue®/DEF and diesel twin pump

SPECIFICATIONS:

- Compatible with diesel, bio diesel up to B30, HVO (paraffinic diesels), and AdBlue®/DEF
- Cabinet AISI304 stainless steel
- LCD back light volume only display, housed in waterproof box
- 10:1 or 100:1 pulser transmitter
- 4-piston positive displacement meter with electronic encoder
- Compact geared suction pump with air separation
- 100 micron inlet filter, 70 micron outlet filter
- Single phase 240V 50/60hz 0.55 kW or 1.1 kW motor, continuously rated
- Suitable for above and below ground installations
- Certificate: ATEX

OPTIONS:

- Second side display
- Left, front or right nozzle holster
- High hose mast
- Stainless steel plinth
- Galvanised under pump cradle
- AdBlue®/DEF dispenser option available for use with submersible pumps

C-SERIES

When performance counts,
C-Series delivers.

With universal compatibility with POS and FMS systems, and an easy-to-read display, the C-Series is ideal for any refuelling site.

The range was designed to be easy to maintain with long service life.

Constructed from the highest quality materials the C-Series range is a guaranteed return on investment.

AB22HDFC/DISP	25/90L/min AdBlue®/DEF dispenser and diesel suction twin pump
AB22HDFR/DISP	25/90L/min AdBlue®/DEF dispenser and diesel suction twin pump - retail

SPECIFICATIONS:

- Compatible with petrol/gasoline, diesel, bio diesel, HVO (paraffinic diesels), aviation fuels and AdBlue®/DEF
- Cabinet AISI304 with GRP head
- Programmable via remote control
- LCD back light display
- Pulse 10:1 or 100:1 or Serial Protocol
- 4-piston positive displacement meter with electronic encoder
- Compact geared suction pump with air separation
- 100 micron inlet filter, 70 micron outlet filter
- Single phase 240V 50/60hz 0.55kW or 1.1kW pump, continuously rated
- Suitable for above and below ground installations
- Certificates: ATEX, MID & OIML

OPTIONS:

- Second side display
- Retail display with volume and price
- Automatic temperature compensation
- Left, front or right nozzle holster
- Stage two vapour recovery for petrol/gasoline
- Hose dilation for long hose
- Hose mast
- 3-phase motor 380/400-volt 0.75kW 50/60 Hz
- Marine grade AISI316 stainless steel
- Stainless steel plinth
- Galvanised pump frame
- Dual stage solenoid for delivery pre-sets

CUSTOM PRODUCTS

Need something out of the ordinary?

We've developed our Custom Products range through years of feedback and requests from our customers.

By working hand-in-hand with our customers, we've designed this range to overcome the most trying fuelling obstacles.

Once a base product is chosen, we tailor each handmade pump to your individual needs based on your unique specifications.

[Click to Configure Your Pump](#)

Past custom orders have lead us to expand our expertise in pump design. With solutions for extreme climates, extra fast fuelling, and corrosive environments.

180 LITRES PER MINUTE
Part Number: SC11EEHC
1425mm H x 540mm W x 450mm D

DEBOWSER
Part Number: DB11SC
1425mm H x 370mm W x 450mm D

MECHANICAL
PETROL/DIESEL
Part Number: MC11LC
1150mm H x 370mm W x 450mm D

APPLICATIONS:

PLANT

MARINA

DEFENCE

AVIATION

BUS DEPOTS

AGRICULTURE

FLEET

RAIL
